

FIBER OPTIC SIMPLEX DUCT PLUG

Sealing plugs for small diameter ducts

KEY FEATURES

- Water and air resistant
- Simple installation around in-place cables
- No tools required
- Seals all types of innerduct conduits
- Easy to retrofit
- Riser cable support
- Wide cable sealing range
- Install and remove by hand

JackMoon[®]
Sealing Devices

JackMoon Fiber Optic Simplex plugs to secure, protect, and terminate new or existing fiber optic cabling

A tried and true design, JackMoon[®] Fiber Optic Simplex plugs effectively organize and seal conduits containing one line.

Designed for applications involving fiber optic cable placement in subduct, they are also ideal for sealing coax or twisted pair cable. Fiber optic simplex plugs are reusable and retrofittable allowing them to be used in applications facing modernization. The expandable, rubber gasket conforms to and contracts around the cable, preventing the incursion of water, air, and dust into the duct system or building.

Many of our sizes are JackMoon certified cross-referenced for a seamless part number conversion.
